Profile

Flutter Developer with 2+ years of experience building production-ready cross-platform mobile applications for iOS, Android, and Web. Specialized in state management, Firebase integration, and full-stack development with Node.js. Proven track record of delivering scalable applications with clean architecture and optimized performance.

Education

City University of Science and Information Technology

Bachelor's Degree in Software Engineering

2019 – 2023

Peshawar, Pakistan

Experience

Metasense

February 2025 – Present

Flutter Developer

Pakistan

- Leading the development of scalable Flutter apps integrated with Firebase and Node.js backends.
- Implementing advanced UI features, state management, and code modularization for maintainability.
- Collaborating with backend engineers and UI designers to deliver pixel-perfect, high-performance apps.

EaseTechIT Solution

August 2024 – February 2025

Flutter Developer

Pakistan

- Built and deployed multi-module mobile apps with Firebase Authentication and Firestore.
- Improved app startup time and optimized widget rebuilds for smooth UX.
- Participated in code reviews, project planning, and version control using Git.

Tritect Solution

December 2023 – March 2024

Junior Flutter Developer

Pakistan

- Developed Flutter apps from design to deployment, following agile methodologies.
- Integrated APIs, handled data models, and implemented Provider for app state control.
- Supported UI/UX enhancements and bug fixes for ongoing projects.

Projects

KiddoStoryAI | *Flutter, Node.js, Express.js, OpenAI API, Firebase*

2024

- Built AI-powered storytelling app with OpenAI integration for personalized story generation.
- Developed RESTful API backend and implemented secure Firebase Authentication for 500+ users.
- Designed responsive UI supporting iOS, Android, and Web with consistent user experience across platforms.

ExpenseNest | *Flutter, Firebase Firestore, Provider, Firebase Auth*

2024

- Created cross-platform expense tracking app with real-time sync and Provider state management.
- Integrated Firebase Firestore for cloud storage with offline support and data visualization charts.
- Implemented categorization features and budget alerts with push notifications for financial tracking.

Locyal | *Flutter, Firebase Firestore, Provider, Cloud Functions*

2023

- Developed rewards platform with responsive web and mobile UI using Firebase Cloud Functions.
- Implemented secure authentication and real-time database updates for store-customer interactions.
- Built QR code scanning functionality and automated reward distribution system for customer loyalty.

Technical Skills

Mobile Development: Flutter, Dart, Cross-platform (iOS/Android/Web), Responsive UI Design

State Management: Provider, BLoC, Cubit, GetX

Backend: Node.js, Express.js, Firebase Cloud Functions, RESTful APIs, GraphQL

Databases: Firebase Firestore, MongoDB, MySQL, PostgreSQL

Tools & Practices: Git, GitHub, VS Code, Android Studio, Firebase Auth, JWT, Agile/Scrum

Additional Skills: API Integration, Performance Optimization, UI/UX Design, Testing & Debugging
